ANNUAL MEET'G GOLF CLUB HELD LAST FRIDAY NIGHT

The Annual Meeting of the Carbon Golf Club was held in the Municipal office last Friday evening, a fair attendance being present.

The minutes of the previous meeting were read and adopted.

The following officers were elected for the year:

President L. Poxon
Vice-Pres. G. Peters
Captain A. F. McKibbin
Vice-Captain H. Brown
Sec.-Treas. E. J. Rouleau

Executive committee: H. Wilson, R.H. Purdy, R. J. Fairbairn and F. Bessant.

Membership committee: G. Peters and E. J. Rouleau.

The fees were set the same as last year, i.e. Gents \$5; Ladies \$3; Children \$1. And the fees must be paid before you commence to play golf.

The question of affiliation with the Alberta District Golf Association came up and a motion was passed to the effect that the Carbon Club affiliate with this Association.

Considerable discussion took place on the possibilities of a club house and the matter was left in the hands of a committee composed of F. Poxon, H. Brown, and the Executive Committee, to go into the cost and other details concerning such a club house.

Another matter that was brought before the meeting was the holding of a card party in order to raise additional funds, but this matter was also left in the hands of the Executive committee.

LARGE NUMBER ATTEND BOARD OF TRADE MEETING

The Board of Trade meeting held in the Municipal hall on Monday night was one of the best attended meetings of the Board this year.

The reason for the large turnout was, no doubt, for the discussion of the foot bridge that the Village had given orders to build across the creek where the old power plant used to be. There was a rumour that the bridge was to cost in the neighborhood of \$600, whereas it would take \$200 to fix the old bridge. And many believed that the Village could not afford to spend this extra money on such a bridge when the roads about the

Village were in such a deplorable condition. However, as this was only idle rumour as to the cost of the bridge and that the estimated cost would not be more than \$450, besides being guaranteed practically a lifetime construction; and whereas the cost of repairing the old bridge would be about \$200 and would have to be repaired in a few years again, besides being out of the direct route to the island and on private property, little was said against the project and the Council later, in the interests of the tax payers, ordered the construction work on the foot bridge to go ahead.

Another matter that was brought

ELK INSTITUTION NOW TO BE HELD WED., APRIL 23

The Elk Institution, postponed because of the roads, will now be held on Wednesday, April 25, regardless of roads or weather.

Education and Religion

There is no subject in which the people of Western Canada take a deeper or more continuing interest than the subject of education. They demand the best for their children, and that they are prepared to pay for it is manifested by the splendid school buildings which are an outstanding feature in every Western city, town and village and in the steadily improving character of rural school houses, coupled with the generous financial provision made for the upkeep of the schools. Whatever complaint there may be in regard to the size of tax bills, the majority view is that, where pruning of expenditure is necessary, it must not be done at the expense of efficiency in education.

Demanding the best in education, there is much difference of opinion as to what constitutes the "best" and how it is to be attained. It is now generally accepted that the state owes to every child the rudiments of an education, and is responsible for seeing that each boy and girl receives it. Education must, therefore, be state aided, and the state which provides the money must supervise and control the educational system and be responsible for it. The vast majority of people today will not consent to that responsibility being delegated to any other authority.

People are, however, divided in opinion as to what should be taught in the schools. Roman Catholics hold tenaciously that a school without religion is godless and that character cannot be properly moulded or sound morals taught except through religious teaching, hence, as Father Ryan expresses it in "The Catholic World," "the Church cannot regard as satisfactory any system of education in which religion is not the foundation of the whole curriculum." Many Protestants, and an increasingly large number of them, agree. On the other hand, most Protestants insist that the state-aided schools shall be wholly secular, and that religious teaching is the duty of the Church, the Sunday schools and the home.

The educational systems of these Western Provinces are a compromise between these two opposing views in that they make provision for the establishment of minority separate schools and for the use of the last half-hour of the regular school day for religious instruction if the trustees so decide. This compromise feature is objected to by many, and the opinion is frequently voiced that what this country should have is the national school system of the United States.

A century ago, however, all religious sects in the United States, Protestant as well as Catholic, opposed the wholly secular public school, and insisted, as they had from the time of the Puritans, upon religious training in the schools. Now, after a century of secular public schools, the churches of the United States are taking stock of the situation and looking results squarely in the face. The general tenor of the complaint of the Protestant assemblies is "the comparative failure of the church's religious education," and that "neither the homes, nor the churches, nor the schools" provide an adequate religious training, and that "a solution must be found or disaster will befall both the Church and society." They recognize that the Sunday schools do not meet the need, because so small a proportion of the children attend, and the instruction for the most part is ineffective, because of lack of time, teacher preparation, and pupil interest. The problem confronting the Church is, therefore, one of combining religion with public education, Church and State working together for a great result neither can achieve alone.

What is happening? Nineteen of the principal Protestant bodies have formed the Council of Church Boards of Education for the purposes of carrying out a program of religious instruction during public school hours to supplement the regular curriculum. The plan is as follows: On the request of the parent, a child is assigned at fixed periods each week for the study of religion under a teacher designated by the parent. These teachers are appointed and supported by the sects, but their qualifications are to be the same as for other instructors. Likewise, the standard of work and the credit granted are determined as for other subjects. Where no legal bar prevents, classes have sometimes been held in the school buildings; otherwise, in rooms provided by the churches. Textbooks and study materials have been issued by the various denominational publishing houses.

Week-day religious instruction on public school time has been adopted in about eight hundred communities in over twenty States. In New York City, Catholics and Protestants have united to secure the arrangement there. Laws sanctioning this policy have been passed in Iowa, Minnesota, Ohio, Oregon and South Dakota, while court decisions in two States and official rulings in eight others have protected it. Even where legislation has been rejected, or no action taken, the plan is proceeding without interference.

This trend of thought and action in the United States, where a national secular public school system has so long prevailed, is of interest, and the above outline is presented solely for the information of Western people anxious to discover what is best for their children and calculated to build up a strong Christian country.

When Pain Comes

What many people call indigestion, very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sours. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention. One spoonful of this harmless,

tasteless alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Go get a small bottle to try. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Praise For Anti-Toxin Cure

Most Effective In Warding Off Diphtheria Says U.S. Doctor

The number of cases of diphtheria and deaths resulting therefrom have been reduced 60 per cent. in Pennsylvania in the last few years, says Dr. Theodore B. Appel, secretary of health, at Harrisburg. This phenomenal decrease, Dr. Appel held, has been due almost entirely to the use of toxin-antitoxin.

"Nothing has been more definitely proven," Dr. Appel said, "than the power of toxin-antitoxin to ward off that most dreaded childhood disease—diphtheria."

A New Slip

Did you know that a fifteen-cent envelope of Diamond Dyes will duplicate any delicate tint that may be the vogue in dainty underwear? Keep your oldest lingerie, stockings too, in the shade of the hour. It's easy if you only use a true dye. Don't streak your nice things with synthetic tints.

Dye or tint anything; dresses, or drapes. You can work wonders with a few, inexpensive Diamond Dyes (true dyes). New colors right over the old. Any kind of material.

FREE: Call at your druggist's and get a free Diamond Dye Cyclopedic. Valuable suggestions, simple directions. Piece-goods color samples. Or, big illustrated book Color Craft free from DIAMOND DYES, Dept. N9, Windsor, Ontario.

Diamond Dyes

Just Dip to TINT, or Boil to DYE

The Canadian Rockies cover an area greater than that of France, Belgium and Switzerland combined.

Asthma Cannot Last when the greatest of all asthma specifics is used. Dr. J. D. Kellogg's Asthma Remedy assuredly deserves this exalted title. It has to its credit thousands of cases which other preparations had failed to benefit. It brings help to even the most severe cases and brings the patient to a condition of blessed relief. Surely suffering from asthma is needless when a remedy like this is so easily secured.

Blue and White Tale

Development of the deposits of blue and white talc which are found in the vicinity of Banff, Alberta, is to be undertaken. The blue variety of talc which is very rare and valuable is used in electric insulators and gas burners while the white is extensively used in the preparation of cosmetics.

No one need endure the agony of corns with Holloway's Corn Remover at hand to remove them.

A Zulu woman may not call her husband by his name, either when addressing him or when speaking of him to others; she must use the phrase "father of So-and-so."

Keep Minard's Liniment handy.

Joy: The feeling experienced by the man who counts his money and finds more than he expected.

Miller's Worm Powders destroy worms without any inconvenience to the child, and so effectually that they pass from the body unperceived. They thoroughly cleanse the stomach and bowels and leave them in a condition not favorable to worms, and there will be no revival of the pests.

If some people were to think twice before speaking they would never say anything.

An Oil Without Alcohol.—Some oils and many medicines have alcohol as a prominent ingredient. A judicious mingling of six essential oils compose Dr. Thomas' Electric Oil, and there is no alcohol in it, so that its effects are lasting.

There are nine hundred miles of silk fibre in a pound of silk. China's yearly production is 9,000,000 pounds.

Minard's Liniment for cuts and bruises.

Red Cross Celebration

Fifty-Eight Nations Will Celebrate Hundredth Birthday Of Founder Of Organization

On May 8, 1928, fifty-eight national organizations, banded together under the Red Cross flag, will celebrate the hundredth birthday of Henri Dunant founder of Red Cross and joint winner of the Nobel Peace prize.

In Toronto, the Ontario Division of the Canadian Red Cross Society will signal the occasion by giving a banquet on April 25th to welcome the delegates attending the Annual Meeting of Central Council. A limited number of tickets are being sold outside of the membership, and it is expected that nationally known speakers, including the Lieutenant-Governor of Ontario, will attend and give the celebration speeches. Similar functions will also be held in every Canadian province.

It is fitting indeed that such a centenary should not go by unnoticed, for Dunant did much to promote the idea that suffering in war, the agony of the battlefield, could be largely mitigated.

It was while this great benefactor of humanity was travelling in Lombardy in 1859 that he saw 40,000 dead, dying, wounded and sick men lying on the Battlefield of Solferino, without anyone offering as much as a drink of water in kindly service. The sight of this so wrung his heart that he did not rest until an impromptu hospital was prepared in the nearby town of Castiglione, with a voluntary ambulance and nursing service in attendance. Thus he became known as the "Good Samaritan of Castiglione."

The sight of so much agony never left his mind and he wrote a brochure that was fraught with much significance to the world thereafter.

Dunant for several years travelled about Europe lecturing and giving his opinions regarding the treatment of soldiers in battle, pressing home the need for a reorganization of the medical services, for the rearrangement of plans for repatriating prisoners of war and caring for disabled men who had been broken in fighting for their country's cause. Out of Dunant's first idea grew the Conference at Geneva, which resulted in Red Cross being made law for the world. The first Treaty of Geneva was signed by twelve out of sixteen national delegates, the first Red Cross Society being formed in the German principality of Wurtemberg.

From that time the symbol of the Red Cross, which was originally adopted in honor of Switzerland, where the first treaty took place, be-

ST. CHARLES MILK
(Unsweetened)

came the chief organization to serve the soldier in war, and eventually to follow him and his family into civilized life, caring for the sick and promoting health in general.

Great Britain adopted the Treaty of Geneva on February 18, 1865; Prussia joined June 22, 1865; Russia was linked up on July 5, 1865, and the United States on March 16, 1882. The Canadian Red Cross Society at first was an offshoot of the British organization, but is now entirely autonomous within the boundaries of the Dominion of Canada. Turkey also subscribes to the same ideals but uses the symbol of the red crescent in place of the Red Cross, Turkey being purely a Mohammedan nation.

ED. J. ROULEAU,
Editor and Publisher

A few of the tax payers have raised their voice as to the work of the new Village council and their expenditures on public interests. Yet at the same time these very persons have asked for work to be done on other parts of the Village. But justly so. One part of the Village should not be served in lieu of the other, but neither should suffer over the fact that it will cost a little more to satisfy all the tax payers and at the same time put the Village in better condition. If the Village of Carbon is to prosper and keep pace with other towns we must have improvements, and such improvements as the new foot bridge and the fixing up of our streets are something that is needed. The Village Council has pointed out that if these improvements are done the taxes will go up and there will be turmoil in the public square. But why keep the taxes

so low that little, if any funds are available in which to finance the upkeep of the Village. The tax rate in Carbon is 25 mills, the lowest of any town in Alberta, if not the Dominion of Canada. Surely the taxes will have to go up in order to provide public improvements. But they will be very little more than at present and no public spirited person will object if the council can show needed improvements. Our advice to the Village Council is to raise the mill rate if it is needed for the upkeep of our Village. We have good men on the Council and they are not going to throw away public funds.

OFFICE CAT

A lot of drivers seem to have the idea that it's the quick turnover that counts.

And if these flappers aren't so bad as they are painted that isn't saying much.

An Irishman and Scotchman were passing a large Roman Catholic church in Montreal. The Irishman being a good Catholic, took off his hat when they were passing. Sandy did the same.

After they had passed the Irish.

man said to the Scot.

I didn't know you were a Catholic, I thought you were a good Presbyterian. I was glad to see you take off your hat when you passed the Holy Church.

Church! said Scotty. Mon, I thoct it was the Bank of Montreal.

Ken: Dad, gimme a dime.
Dad: Don't you think you're getting too big to be forever begging for dimes?

Ken: I guess you're right Dad. Gimme a dollar, willya?

Motorists Agitated Wife (in the fog): I'm positive that that was a man we just went over.

Motorist. Good, then we are still on the road alright.

Listen, remarked the exasperated driver over his shoulder, Lindberg got to Paris without any advice from the back seat.

Well, well, said the dentist jovially as he appeared in the outer office, who has been waiting the longest?

I have, said the tailor as he presented his bill.

A northern railway contractor recently advertised for 250 sleepers. A very fed up clergyman replied offering his entire congregation at a knock-out price.

Winnipeg.—So many applications have been received from farmers in Manitoba to engage the services of youths who are being sent out from Great Britain under the Boy Immigration scheme, that the Provincial Government has requested the authorities to increase the number from 50 to 100. Hon. Albert Prefontaine, Minister of Agriculture, stated that 175 farmers have filed applications for boy help. It is expected that the first batch of youthful immigrants will reach Manitoba late in March.

Substantial reductions in express charges on packages up to 15 lbs. in weight originating in Europe and with Canadian destination have been announced by the Canadian Pacific and Canadian National Express companies. These cuts run as high as \$1.77 and for the purpose of the change Canada has been divided into three zones, Maritime Provinces and Quebec; Ontario; and Prairie Provinces and British Columbia. Within these zones charges are the same no matter how widely separated points within them may be.

Wetaskiwin.—Wetaskiwin district has the distinction of being the home of a Shorthorn cow which holds the record for all Canada in the production of milk and butterfat as a three-year-old. She is owned by J. O. Harvey in the northwestern part of the city, and a letter from Ottawa advises that the production of this cow has never been equalled in Canada. Gladys No. 200699 produced 10,504 lbs. of milk and 509 lbs. of butter fat in a test extending over 105 days. She is now undergoing her test as a four-year-old and is averaging about 68 lbs. of milk a day.

TO WOMEN OF MIDDLE AGE

Mrs. Wilson's Experience a
Guide to Women Passing
through the Change of Life

Hamilton, Ontario.—"I have taken
several bottles of Lydia E. Pinkham's
Vegetable Compound and I can-
not speak too highly of it as I
was at the Change of Life and was
all run-down and had no appetite.
I was very weak and sick, and the
pains in my back were so bad I
could hardly move. I got very sad at
times and thought I had not a friend
on earth. I did not care if I lived or
died. I was very nervous, too, and
did not go out very much. A friend
advised me to try a bottle of Lydia E.
Pinkham's Vegetable Compound, so
I did. I am a farmer's wife, and al-
ways worked hard until lately, and
was in bed for two months. I began
to feel like a new woman after the
first bottle and I recommend it with
great success, also Lydia E. Pink-
ham's Liver Pills. I am willing to
answer letters from women asking
about your medicines, as I cannot
speak too highly of them." Mrs.
Emma Wilson, 471 Wilson Street,

Small Town Papers

BY
FRANK PARKER STOCKBRIDGE
Reprinted by special permission from Sat-
urday Evening Post. Copyright 1928, by
the Curtis Publishing Company, Phila-
delphia.

(Continued.)

"I tell you what, you skeptical old
type louse," he continued, looking at
his wrist watch and snapping me on
the back, "I'm in town for a meeting
of the executive committee of our
editorial association to make ar-
rangements for our convention next
summer. If you really want to know
what the country newspaper is like
in this year of grace, come on along
with me to the hotel. We haven't any
secrets and you can speak the lan-
guage of the craft well enough to
pass for one of us. You'll meet some
good fellows, live newspapermen,
from the small towns all over the
country, and they'll tell you better
stories than I can. Can you spare the
time? I'd love to have you come."

"I've time enough," I told him, "but
I don't like to butt in."

"Butt in, my eye!" said Bert. "You
used to be my boss, you know, and I
want to show the other chaps the guy
who taught me the beginnings of
journalism. They'll be tickled to
meet you. Besides, if you don't hear
what they have to say I know what'll
happen. You'll go round to the news-
paper club and tell the old-timers
whom I used to know what a liar
Bert Mills has turned out to be.
Come on!"

I went. And I found out that that
novelist's idea of making a living out
of a couple of country newspapers
wasn't so funny as it had seemed to
me. Things have changed in the small
towns; and, as the saying goes, how!

It didn't take long, after Bert had
introduced me all around, to discover
that the thirty or forty country
editors in the crowd were immensely
proud of their profession, their pa-
pers and their home towns. That was
the most noticeable difference be-
tween them and the sort of country
editor I had known in my youth. The
old-time country editor had plenty of
professional pride, but if he was
proud of his town, the feeling was not
often reciprocated. These were men
of standing in their communities; you
could tell that by the way they talked
and carried themselves.

"The successful country newspaper
publisher today is no longer primar-
ily a printer," is the way one of them
explained it to me. "You notice that
I said publisher. That means that he
is a business man. He may or may
not be also an editor or a printer, or
both, but the emphasis is on the busi-
ness end. Most of us are our own
editors as well as publishers, and
there are still a good many who be-
gan as printers and will always be
printers at heart. But publishing a
country paper of today is definitely a
business, and a very profitable busi-
ness."

There were country publishers from
every part of the United States at
this meeting, as well as representa-
tives of business concerns having
merchandise to sell to country pa-
pers. Between listening to the discus-
sions in the committee and the con-
versation around the luncheon table,
where Bert Mills brought a dozen
other good fellows together, I discov-
ered that my former ideas about
country papers were based upon con-
ditions which are as extinct as the
passenger pigeon.

Much of the picturesqueness and
glamour which surrounded the old-
time country editor and his shop have
disappeared, to be replaced by mod-
ern efficiency. There are still occa-
sional pioneers, penetrating into new

fields with the vanguard of civiliza-
tion, to set up their presses and pre-
empt the field in advance of popula-
tion; but these are rare instances on
the few remaining frontiers, and even
in such cases, subscribers, advertisers
and profits follow faster than B.
Franklin Simms, my old boss, ever
dreamed of.

A California editor told us of a man
in his own state, F. L. Drexler, who
took a pioneering chance less than
five years ago.

"I don't know how much capital he
had," said the California man, "but
it wasn't much. He bought a little pa-
per, the Free Press, at Riverdale.
Riverdale has a census population of
284; it's just a wide place in the road.
After Drexler had made his first pay-
ment he had just \$150 left, he told
me. But he made the paper pay, and
since then he started two others, each
in a village of less than 250 people.
I don't know what he's worth, but
he's always paid his bills and wages
promptly, kept his children in the
best schools, own two automobiles and
two printing plants, all paid for, be-
sides some real estate, and has a cash
surplus in the bank."

A Florida delegate matched that
with the story of Howard Sharp's
Everglades News.

"I don't think there are as many as
250 people in the town of Canal
Point, on Lake Okechobee, where
Sharp started the News a few years
ago," he said; "but today the News
has about 1500 circulation, which is
higher than the national average of
country weeklies, and it covers its
local field exclusively and intensively.
Anybody who wants to know what is
happening in Washington or Russia,
or whether Lindbergh made another

LESSON No. 17
Question: Why is
emulsified cod-liver oil
so efficient a food for
young children?

Answer: Rickets or
weak bones are evidences
of lime-deficiency. Emul-
sified vitamin-rich cod-liver
oil helps Nature supply
this deficiency.

Pure, pleasantly flavored,
nothing quite surpasses

SCOTT'S EMULSION

ASSURANCE DOUBLY SURE

Though the days of passenger liners in distress have gone, ships' seamen are still encouraged to keep fit by
lifeboat rowing competitions. Here is Col. W. I. Gear, vice-president of the Robert Reford Co., presenting a cup and
individual medals to winners from the Canadian service Cunarder Alaunia, recently.

flight yesterday, can subscribe to
some city daily; but the city daily
can't give the space to tell how many
acres of muck land each farmer in
Everglades has under cultivation,
how many cars of beans were shipped
during the week, and the rest of the
intimate, personal, local news, which
is what the people living there really
want to know."

That is the secret of the success of
the country newspaper, just as it al-
ways has been—the ability to give its
readers news about themselves which
the city paper, no matter how near
by it may be published, cannot pos-
sibly give them. Instead of trying to
compete with the daily papers, the
country editors of today are leaving
the fields of national and interna-
tional news to the dailies—even state
news to a large extent—and concen-
trating on the news of their own
countries or circulation territory. The
country weekly in the old days had to
print a good deal of general news be-
cause its readers were out of range of
the dailies. Now the dailies penetrate
everywhere, but, paradoxically the
country newspapers are more flour-
ishing than ever before.

In Greenfield, Massachusetts, for
example, a town of 15,000, there is a
substantial daily paper; but there is
also the Greenfield Gazette, which
has been published as a weekly for
135 years. The Gazette has forty
correspondents, one in every town in
Franklin County, two in some towns,
and there isn't a farmer in the terri-
tory who can paint his barn or buy
a new flivver without the news of it
getting into the Gazette. The result is
a circulation above 5,000.

(To Be Continued.)

GREAT HELP TO YOUNG MOTHERS

Baby's Own Tablets Have Many
Uses and Are Absolutely
Harmless

To have in the house a simple,
harmless remedy for the minor ills of
babies and little children is a great
boon to young mothers, and this is
exactly why Baby's Own Tablets
have been found in thousands of
households. The Tablets regulate the
stomach and bowels, break up colds
and simple fevers, allay the irritation
of cutting teeth, yet they have no
drug taste and the children like them.

Concerning the Tablets Mrs. Ruth-
ven Crommiller, Ruthven, Ont.,
writes:—"Kindly send me your little
book on the Care of the Baby. I have
two children, one four years of age
and the other a year and a half. Both
are in excellent health and the only
medicine they have had is Baby's
Own Tablets. I always keep the Tab-
lets in the house and am happy to
recommend them to other mothers."

Baby's Own Tablets are sold by all
medicine dealers or by mail at 25 cts.
a box from The Dr. Williams' Medi-
cine Co., Brockville, Ont.

Don't forget that other people may
think that you are as silly as you
think they are.

Use Minard's Liniment for Corns.

It is easier for a man to be the
architect of his own future than the
builder of it.

The volume of a man's laugh may
not contain a single page of happi-
ness.

Minard's Liniment for Backache.

Aluminum serves mankind
in many ways—one of them
being as a container for fine
teas. All Red Rose Tea is
put up in clean, bright
aluminum, thus insuring its
coming to your table as
fresh and flavorful as the day
it was packed. **7-W**

SUNDAY SCHOOL LESSON

APRIL 22

JESUS AND THE HOME

Golden Text: "Honor thy father
and thy mother" (which is the first
commandment with promise). —
Ephesians 6.2.

Lesson: Mark 10.1-6.

Devotional Reading: Ephesians 6.
1-9.

Explanations and Comments

The Teaching Of Jesus About Di-
vorce, verses 2-9.—Pharisees came to
Jesus and in an effort, not to obtain
instruction, but to entangle Him, put
to Him this much-disputed question:
"Is it lawful for a man to put away
his wife?" As later in their question
about the tribute money, so here they
thought that whichever way He an-
swered they would have a case against
Him. If He said "Yes," He would of-
fend the Jews who believed in the
teaching of Rabbi Jochanan, who
said, "The putting away of a wife is
odious"; if He said "No," he would be
opposing the teaching of many rab-
bis, and would offend Herodias (for
Herod had put away his own wife
and married Herodias), the wife of
his brother, while the latter was still
living, and her fury might cause Him
to share the fate of John the Baptist.

As was His frequent custom Jesus
referred them to their law: "What
did Moses command you?" He ques-
tioned. "Moses suffered to write a bill
of divorce, and to put her
away," they replied.

"You threaten the very life of the
Nation when you relax the ties of
marriage and weaken the family
bond. There is nothing we want more
than a new grasp of our Lord's teach-
ing—that there is but one moral law,
and that law the same for man and
woman. The sacredness of marriage
ought to be a subject upon which we
have no doubts. On this point it is
well not to have an open, but a closed
and settled, mind. Let no specious
and plausible talk about 'unhappy
marriages' unsettle that conviction.
The remedy for 'unhappy marriages'
is not greater facility for divorce, but
increased thought and seriousness in
the contraction of marriage. Laxity
in this will mean rottenness sweeping
in like a flood. It is ours to maintain
and assert the more austere and ex-
acting view of Christ. Marriage is
an ordinance of God. It is meant for
the perfecting of character. It is es-
sentially and ideally permanent and
indissoluble."—J. D. Jones.

The Oil Of Power.—It is not claim-
ed for Dr. Thomas' Electric Oil that
it will remedy every ill, but its uses
are so various that it may be looked
upon as a general pain killer. It has
achieved that greatness for itself and
its excellence is known to all who
have tested its virtues and learned by
experience.

Canadian Muskrats Go To Belgium

Muskrats have been added to the
fur bearers to leave Canada to be-
come foundation stock in other coun-
tries. Forty of these little animals
have been shipped through the Cana-
dian Pacific Express Company to Bel-
gium to become the nucleus of a fur
industry.

As a vermifuge an effective
preparation is Mother Graves' Worm Ex-
terminator, and it can be given to
the most delicate child without fear
of injury to the constitution.

The man with a dollar, a nickel and
a hole in his pocket invariably loses
the dollar and retains the nickel and
the hole.

HEART WAS SO WEAK Had to Stay in Bed

Mrs. F. Wilson, Lethbridge, Alta.,
writes:—"My heart was very weak,
and I had to stay in bed for five weeks
with it."

"My aunt advised me to take

as she had taken them with good re-
sults after a very bad operation.

"I took them and some time after
a doctor came to examine me for life
insurance and he said there was noth-
ing wrong with my heart."

50c. a box at all druggists and dealers,
or will be mailed direct on receipt of
price by The T. Milburn Co., Limited,
Toronto, Ont.

NET DEBT OF CANADA REDUCED BY 87 MILLIONS

Ottawa.—A decrease of \$87,160,784 in the net debt of Canada during the fiscal year which closed on March 31 last is shown in the financial statement issued by the Department of Finance.

Until the department is in receipt of all the revenue collected in distant parts of the Dominion and until a number of obligations which properly come into last year's financing are met, the figures for the year cannot be regarded as complete, however.

Last year, the statement issued at the close of the fiscal year showed a decrease in the net debt of \$61,429,500. The net debt as on March 31 last, according to the statement, was \$2,260,673,585.

Ordinary revenues collected during the past fiscal year amounted to \$410,144,559, or an increase of \$26,233,336 over those of the previous year, the statement shows. Ordinary expenditure also recorded an increase amounting to \$15,407,665, and stood at \$306,708,741 on March 31 last.

Customs duties yielded revenue of \$155,571,770 during the fiscal year just closed, as compared with \$140,883,890 in the previous year.

Revenue from excise duties showed an increase of \$8,827,037 over the 1926-27 figures.

There was a decrease of \$14,194,964 in excise tax collections, which include the sales tax. The total amount collected was \$97,046,220. Income tax collections recorded an increase of \$9,260,270 over the 1926-27 revenues. The total amount collected in the year just closed was \$56,547,570.

In the expenditure column, the big item was one of \$120,780,973 for interest on public debt. This was over a million dollars less than in the previous year.

The amount expended for pensions during the year just closed was \$36,195,858 against \$34,533,661 in the previous year.

All-British Settlers For Western Provinces

Large Party Of Boys Were Among New Arrivals

Winnipeg.—Reminiscing more a large party of tourists from the Old Country with cameras and fishing outfits in solid leather cases hanging from their shoulders, some 400 new settlers from the British Isles arrived in Winnipeg last week over Canadian Pacific lines to take up agricultural work in the Western provinces.

The party, one of the largest all-British to arrive in the West for some time, were discharged at St. John from the S.S. Montcalm and proceeded here by special train.

Outstanding in the party was a group of 32 young British lads in their middle teens who were brought out to the Dominion under the auspices of the Agricultural Department of the Manitoba Government.

They were met on arrival at the Canadian Pacific Depot here by Prof. C. R. Hopper, member of the faculty, Manitoba Agricultural College, who is looking after newcomers of this type for the Government.

Fall Grains Winter Well

Come Through In Ontario Better Than Anticipated

Toronto.—Fall wheat, alfalfa and other clovers have come through the winter in Ontario in better condition than had been anticipated is the general consensus of opinion gleaned from reports received by the Ontario Department of Agriculture.

While a little seeding has been done in the counties of Essex and Kent, very little, if any, has been attempted in other parts of the province. Plowing, however, is fairly general in many counties of Southern Ontario.

There is a general shortage of grain in nearly all parts of the province.

The demand for farm labor is keen, and particularly so for boys of 15 to 17 years of age who are being brought out by the Department of Colonization.

I.B.S. Broadcast Question

Matter Still Stands On Order Paper In House

Ottawa.—"Is the government considering refusing to continue the license of the broadcasting station CHCY, Edmonton (International Bible Students), and if so, for what reason?" asked H. E. Spencer (U.F.A., Battle River), in the House of Commons.

Hon. P. J. Cardin, minister of marine and fisheries, replied that he had already answered a similar question. In view of this fact, and also because he proposed later to make a statement on the matter, he thought the question might be dropped. Mr. Spencer objected and said he would prefer to have the question stand on the order paper.

J. S. Woodsworth (Labor, Winnipeg North Centre), declared that the minister had given no reason at all for refusing to renew these licenses. He failed to see why the minister should not answer the question. Mr. Speaker decided that the question would remain on the order paper.

Endorses Hudson's Bay Route

Canada Needs Another Outlet and Entrance, Says Noted Arctic Explorer

Montreal.—Favorable endorsement of the Hudson's Bay route was given here by Captain Joseph E. Bernier, noted Arctic explorer, in an address before a local service club. There was a problem on the horizon, he said, which Montreal and the Dominion as a whole would have to face in future years.

As the population of the country grew and the trade of Canada increased, the port of Montreal was bound to obtain a congested condition and then Canada must look to the Hudson's Bay to provide another entrance and outlet.

Coupled with this problem, he remarked that the waters of the St. Lawrence were receding and he felt that if the large liners were going to be able to dock at Montreal there must be a damming up of the waters of the river to maintain the necessary level.

Western Professors Honored

Recommended For Membership In The Royal Society Of Canada

Ottawa, Ont.—Councillors of the Royal Society of Canada in session here approved the awarding of the Flaville medal of the society for this year to Professor A. P. Coleman, of the University of Toronto, and of the Tyrell medal to Hon. Senator Thomas Chapais, of Ottawa. Professor Coleman was awarded the Flaville medal for his work in the interests of science, while Senator Chapais earned his award by his meritorious work in the interests of Canadian history.

It was reported to the council that the various sections of the society had recommended for election this year the following western Canada candidates for membership: Prof. D. C. Harvey, University of Manitoba; Prof. Robert H. Clark, University of British Columbia; Dr. Lloyd L. Dines, University of Saskatchewan; Prof. Stanley Smith, University of Alberta; Prof. Justin S. Delury, University of Saskatchewan.

Will Stay On the Job

Mayor Thompson Will Remain Chief Executive Of Chicago

Chicago.—Despite the fact that most of the candidates he had backed were defeated in the primary, Mayor William Hale Thompson will stay on as the city's chief executive for the next three years. He declared that he had no intention of resigning the post he was elected to last year.

"I positively will not resign," the mayor said. "Why should I? We captured the ward committees and we also got the sanitary district, so there's no reason for me to resign."

During the campaign the mayor had announced that if his favorite candidate, States' Attorney Robert E. Crowe, co-leader in the Republican faction, was defeated, he would seriously consider giving up the mayoralty.

Crowe lost the primary to Judge John A. Swanson, Demec candidate by more than 100,000 votes.

MAKING TOUR OF CANADA

John Walter, co-proprietor of the London Times, now making a tour of Canada under the auspices of the National Council of Education.

Old Age Pensions

Discuss Arrangements For Applying Scheme In Saskatchewan

Ottawa, Ont.—Hon. C. M. Hamilton, minister of agriculture in the Saskatchewan Government, and Hon. Peter Heenan, federal minister of labor, were in conference recently discussing arrangements for applying the old age pension scheme to the prairie province. Administration of the act is one of the functions of the labor department. Saskatchewan adopted the federal plan at the last session of the provincial legislature, enacting a measure that would become effective on proclamation. It is intimated that as soon as the necessary adjustments are made with respect to bringing the provincial and the federal legislation into conformity with each other, the prairie province will begin its old age pension payments.

Does Canada Lack Creative Art?

Assertion Is Made That Great Canadian Novel Is Yet To Be Written

Toronto.—That the great Canadian novel has not yet been written, that there is a dearth of creative effort in music, and that Canadian drama has still to come were assertions made by Fred Landon, M.A., of the University of Western Ontario, when addressing the opening session of the Ontario Library association here.

Dr. George H. Locke, of Toronto, stated that the British Library associations were likely to form a loose federation in London, which would be the centre of library activity for the United Kingdom. That the federation should become still greater and embrace the other nations of the empire was the speaker's suggestion.

Shorthand Speed Record

Dr. Hans Januschat, official stenographer of the German Reichstag claims the world's speed record for shorthand. At a recent contest, Dr. Januschat wrote 470 syllables a minute for three minutes.

Empire Singers Enthrall Canada

Singing a repertoire that includes over one hundred pieces of part-music, ranging through practically every style and taking in folk-songs of England, Scotland, Ireland, Wales and America, with both sacred and secular music, the Westminster Glee Singers are now engaged in a tour of Canada that will be a delight to music-lovers. They are singing in the Dominion under the patronage of His Excellency, the Governor-General of Canada, and have recently com-

Protect Eastern Consumers

Will Make Public Price Of Alberta Coal At The Pit Mouth

Calgary.—That the new provincial coal standards board will act only in an advisory capacity and that the Government is desirous of having the price of Alberta coal at the pit mouth made public, were two important statements made by R. J. Dinning, a member of the new provincial board, at a meeting of coal operators held in Calgary to discuss the new \$6.75 coal rates to Ontario.

Mr. Dinning also intimated that the onus of having the various coals placed on the "preferred" list would rest with the operators themselves.

The list he said, would be submitted to J. A. Ellis, fuel controller in Ontario, at the earliest possible date. The point was stressed by W. W. McBain, of Edmonton, the chairman, that because a rate of \$6.75 had been Ontario market. He intimated that the battle had been won. They had merely won the first round.

It depended upon operators, working in conjunction with the Alberta Government, to win the rest of the Ontario market. He intimated that if the movement was to be a success it was absolutely necessary to safeguard the Ontario consumer in every possible way.

Canada's Autonomy

Canada's Representation On League A Good Thing For the World At Large

Montreal.—Canada's election to the council of the league of nations was international recognition of the Dominion's autonomous status, Sir Herbert B. Ames, former financial director of the league's secretariat, declared in an address here.

With this recognition of Canada's autonomy, Sir Herbert said, came the necessity for greater participation by Canadians in the responsibilities of the league. Canada, he added, had not been elected by any one group, but her candidature had been endorsed by states which had nothing to gain from her election, but which thought that Canadian representation on the council would be a good thing for the world at large.

For Trans-Atlantic Flight

Another Aviator Has His Mind Fixed On "America By Air"

Madrid.—Another aviator has his eye fixed on the goal of "America by air." He is Captain Reginald Folch Truelove, an English flier, formerly chief instructor at the Gosport airdrome in England, and later instructor of Spanish army aviators. He informed the Associated Press that he was preparing for a flight from the airdrome at Seville, Spain, to New York by way of the Azores some time in June. He has not yet selected an airplane, but intends to use a light machine.

Honors For Aviator

Washington, D.C.—A bill proposing to give the congressional medal of honor to Clarence D. Chamberlin for his non-stop flight from New York to Germany last summer was introduced in the senate by Senator Brookhart, Republican, Iowa.

EDUCATION IS VITAL FACTOR IN SOCIAL PROGRESS

Saskatoon.—"Which is it to be, education or jazz?" This was the question asked by J. W. Barnett, Edmonton, secretary of the Alberta Teachers' Alliance, in an address before the Saskatchewan Teachers' Alliance. Mr. Barnett was brought to Saskatoon to be the chief speaker to the alliance, as Dr. G. M. Weir, University of British Columbia, was brought here to be chief speaker to the Saskatchewan Educational Association.

"Chicago," said Mr. Barnett, "with its huge proportion of jazz voters, swayed by unscrupulous political manipulators, has its Big Bill Thompson. What agency will make our polyglot western population a harmonious Canadian nation? We must face the fact, whether or not we like it, but we have just the same potentialities for political monstrosities and corruption in the western provinces as in Chicago; similar elements in the electorate—foreigners, illiterate and unaccustomed to freedom, to western Canadian ideals, to a discreet use of the ballot. Their lack of appreciation of Canadian institutions makes a fertile soil for the growth of mob rule."

"In Chicago voters by the thousands (whose desire and use of the ballot extends no further than putting a cross alongside names indicated by ring managers of a corrupt political circus), decide the situation. They outnumber the educated, better informed type of voter, those able to read, and write, and think in English, who are not so easily swayed by lurid denunciation, able to resist delusions, and of ready will to choose. The latter are too discouraged even to go to the polls."

"Education is no longer a luxury nor an accomplishment, it is a bitter necessity. The more instructed a population, the less liable are they to the delusion of enthusiasm and superstition, which among ignorant nations frequently occasions the most dreadful disorder."

"A democratic community, in order to be truly free, wise, self-governed, needs minds that are wise, self-governed. Lacking it, the national life is at the mercy of every catchword, machine boss, or brazen demagogue."

"We must face this question. Do the teachers really believe in education? Do they believe that making the world 'safe for democracy' is synonymous with 'educate the masses'? Do we believe education is the most profitable investment in the world today? Do we believe the country should provide an equal degree of educational opportunity for every child irrespective of social or endowment? Do we believe the school is the place to inculcate the spirit of goodwill the basis of world citizenship and world peace?"

"If these are mere confessions of the mouth rather than beliefs of the heart, then the sooner we cease talking about education and leadership in education the better—they are as sounding brass and tinkling cymbals."

World's Wheat Exhibition

Federal Government Approached For Assistance In Putting Over Ambitious Plan

Ottawa.—In preparation for the world's wheat exhibition which is to be held in Regina, Sask., in 1932, representatives of the various provincial governments gathered in the capital and interviewed Hon. W. R. Motherwell, minister of agriculture, and Dr. J. H. Grisdale, his deputy, in regard to the assistance which may be expected from the federal government.

Dr. Grisdale intimated that nothing had been decided upon. There was no need for hasty action. Undoubtedly the federal government would do its share to make the exhibition a complete success.

The delegates seemed well satisfied with the progress made and went away happy.

The Sargasso sea covers about as much territory as the Mississippi Valley.

Development of Marquis Wheat Considered Most Outstanding Contribution To Agriculture

While the contributions to agriculture from scientists and plant breeders have been many and important in recent years, the development of Marquis Wheat has been by far the most outstanding. Its introduction into Canadian agriculture marked a new epoch in the agricultural and industrial life of Canada, and to some extent in the United States.

Marquis Wheat originated from a cross made in 1892 at the Canadian Government Central Experimental Farm, Ottawa, between an early maturing variety obtained in India under the name of Hard Red Calcutta, and the leading Canadian wheat, Red Fife. It was developed by Dr. Charles Saunders, of Ottawa, who, on his retirement a few years ago, was given an annuity by the Canadian Government of \$5,000 a year in recognition of his great contribution to agriculture. He is still living in the Canadian Capital.

The chief points which distinguish Marquis are its ability to mature from six to ten days earlier than Red Fife; greater strength of straw than the latter variety; its greater resistance to stem rust; and its greater productiveness. It is probably safe to say that no new cereal variety thus far introduced anywhere has excelled in so many points or has taken the place of other varieties over so wide an area. By 1915, only six or

seven years after its introduction, Marquis had taken the lead over all other varieties throughout the wheat-growing areas of the western provinces, which lead it increased so rapidly that within ten or twelve years from its first introduction it is credited with having occupied not less than 90 per cent. of all the spring wheat area in the Dominion. Even in the United States, Marquis is conceded to be the most generally grown spring wheat variety, occupying in that country between 60 and 70 per cent. of the entire spring wheat area.

It must also be remembered that the advent of Marquis has made it possible to grow a high yielding, high quality wheat in many districts in which wheat might not have been attempted, or if attempted would have yielded much less, and, in many cases would have been of lower quality and grade. While, as may naturally be expected, Marquis may have to give way in certain districts to other varieties which prove better adapted to meet the conditions which prevail there, yet at the present time Marquis reigns supreme as a "general" variety. It is also interesting to note that practically all varieties of common spring wheat which contend for a place in Western Canada are more or less closely related to Marquis, from which they have inherited some of their major virtues.

THE ROYAL OAK COURT-MARTIAL

Captain K. G. B. Dewar, centre, and Commander H. M. Daniel, right, officers of H.M.S. Royal Oak, court-martialed in connection with the recent episode on the flagship of the battleship squadron of the Mediterranean fleet. The charges against them were laid under a blanket provision of the Naval Discipline Act, and concern a letter, deemed subversive of discipline, sent by Daniel to Dewar and forwarded by him to Vice-Admiral Kelly. This letter was said to have contained adverse comment about Rear-Admiral Collard, left, who as a result of the commotion on the Royal Oak "struck" his flag and proceeded to England.

Larger Acreage Shown

Increase in Land Ready For 1928 Western Crop

* Acreage prepared for the 1928 crop in the Prairie Provinces is estimated at 16,295,570 acres, as compared with 15,374,862 acres in 1927, an increase for the present year of 920,708 acres, or 5.9 per cent. Manitoba shows an increase of 530,774 acres, or 17.4 per cent.; Saskatchewan, an increase of 1,005,465, or 12.5 per cent., and Alberta, a decrease of 621,531, or 14.5 per cent. There is an increase in new breakings in all provinces, with the exception of Manitoba; all provinces record an increase in summer fallow, while Alberta records a decrease in fall plowing.

Valuable Asset To Farm

Good Windbreak Useful and Adds Greatly To Appearance

A windbreak is a valuable asset to any farm. Livestock will winter better behind a good windbreak and less fuel will be needed in heating the farm home. Drifting snow is also kept from the yards and buildings if they are protected by a good windbreak.

The well-grown windbreak also provides a real fuel supply. The farm on which there are plenty of trees also makes a more pleasant home than the barren farmstead.

Canadian Included in List

The name of one Canadian is included in the list of official judges appointed by the Holstein-Friesian Association of the United States for 1928. It is that of R. M. Holtby, Ontario, Chief Fieldman of the Canadian Holstein-Friesian Association. He is the only one from the Dominion to be included in the list.

Four Western Provinces Take The Leading Place In Per Capita Wealth of Canada

The total of the tangible wealth of Canada is estimated at \$25,873,174,000, according to a survey made by the Canadian Government Bureau of Statistics for the year 1925, which is equal to \$2,772 per head of population. This total does not include undeveloped natural resources. There was an increase of \$3,000,000,000 in Canada's tangible wealth in four years, as a comparison with the survey made in 1921 discloses.

In the distribution of wealth by provinces, Ontario ranks first, with estimated aggregate wealth of \$9,000,727,000, or 35.1 per cent of the total; Quebec second, \$6,228,281,000 or 24.5 per cent of the whole; Sas-

katchewan third, with \$2,870,314,000 or 11.2 per cent. of the total for the Dominion.

While Ontario led in absolute wealth, the western provinces came first in per capita wealth; Saskatchewan held first rank with a per capita wealth of \$3,544; British Columbia second, with \$3,539; Alberta third, with \$3,459, and Manitoba, fourth, with \$2,909. These figures may be compared with \$2,901 and \$2,495, the per capita wealth of Ontario and Quebec respectively.

The total agricultural wealth is placed at \$7,832,942,000, the largest item in the national wealth, and 30.51 per cent. of the whole.

TYPEWRITING COMPETITION

Three winners in the seventh annual typewriting championship conducted in Toronto are seen above. No. 1 is Miss Marchese, of Vancouver, one of the senior winners. No. 2 is Irma Wright, Canadian champion, who successfully defended her title with 111 words a minute. No. 3 is Elsie Keniston, of Brockville, first in the intermediate class.

Made Ranching Popular

Many Titled People Have Followed Prince Of Wales' Lead

The Prince of Wales's purchase of his ranch in 1919 started a migration of titled European youth to Alberta which is making nobility almost as common as native Indians around the Calgary railroad station. This noble migration has become so marked that one peer, Lord Rodney, has bought a 700-acre ranch where he and Lady Rodney have opened a school of ranching for the titled heads of Europe. Among their present pupils who are taking a two-year course and living in an outhouse like the hired hands are: S. A. R. Prince Charles Philippe d'Orleans, the young duke of Luxemburg, Lord Montague, the Hon. John Stanley and the Hon. Philip Stannier. A few miles from Lord Rodney's ranch the Crown Prince of Denmark runs a large dairy farm from which he now ships tons of butter to Europe annually. Twelve miles west of Calgary Prince D'Abro, of Italy, has one of the biggest cattle ranches in Southern Alberta, Lord Minto, Count DeForas and Count De Roussey are his neighbors.

The Best Varieties Of Vegetables

New Tested Varieties Proven To Be Of High Merit

Vegetable growers, whether gardeners or commercial producers, would find much information of value in the reports of the Dominion Horticulturist. Besides the new varieties originated at the Experimental Farms, practically all of the better varieties of all kinds of vegetables are given thorough test throughout the Experimental Farms System. In the latest report of the Dominion Horticulturist, available at the Publications Branch of the Department of Agriculture at Ottawa, the varieties that have proved themselves to be of high merit are named and described. The vegetables covered are: asparagus, beans, bush and pole, beets, Brussels sprouts, cabbage, cauliflower, carrots, celery, corn, cucumbers, Kohl rabi, lettuce, muskmelon, onions, parsley, parsnips, peas, peppers, pumpkins, radish, rhubarb, salsify, spinach, squash, turnips, tomatoes, and vegetable marrow.

Canadian Postal System

The Canadian Post Office Department delivers over 600,000,000 letters, 350,000,000 newspapers, 400,000,000 circulars, and 40,000,000 parcels annually in Canada. This delivery is made through about 12,440 post offices, and over 200,000 rural mail boxes extending over an area of nearly 3,700,000 square miles.

WHEAT VARIETIES BY CROSS BREEDING

Much Labor Involved In Developing An Earlier Maturing Wheat

In order to develop an earlier maturing variety of wheat many factors had to be considered. Extensive collections were made and experiments were carried on at the Canadian Government Experimental Farm at Ottawa. The variety found to be most favorable to cross with Red Fife was Ladoga, named after the region in North Russia from which it came. Two varieties were developed from cross breeding and were given the names of Preston and Stanley. Both were earlier in maturing than Red Fife, but neither was as good in baking quality, although superior to Ladoga. They undoubtedly marked an advance in breeding work although, in themselves were not good enough to receive the commendation of the milling trade.

Crossings between Ladoga and White Fife, a white-kernelled variety similar in all other respects to Red Fife, yielded a number of forms, two of which received the names Huron and Percy. The former is now considered the most promising variety for most parts of Eastern Canada wherever people are not too particular about the matter of bread-making qualities.

Another interesting variety bearing the name Early Riga resulted from this early crossing work. This came from a cross made in 1891 between two imported varieties. One of these called Gehun, came from the Himalayan mountains of East India, from an elevation of about 11,000 feet. The other called Onega, was brought from near Archangel, Northern Russia. Early Riga proved to be one of the earliest ripening wheats grown. It possessed very fair baking quality but was less productive than Red Fife.

The present Sultan of Turkey studies painting and music.

"Do you really fish at night?"
"Yes. With glow-worms for bait."

CHAPTER XXII.—Continued.

Dr. Symond felt very stern about all this as he stood looking at Helmi. "Where is your husband?" he asked. His tone implied that he suspected foul play. She had probably murdered him and concealed the body. Dr. Symond's manner warned Helmi that it would be better for her to tell the truth. Roused from her dream, she stared at him with a frightened face. "You must answer me," said the doctor, sternly. His manner was patient but firm.

Helmi did not know where to begin. How could she tell this man her fears?

Maggie Corbett came to the rescue. "She has not the best English, Doctor, but I make out her man joined up early in the war and she got afraid and came in. It is all right, Doctor, she's married, safe and sound; she has the ring on her finger and has a valise full of nice things for the little one, and she's not a charity case, Doctor, at all. She has money to pay her way."

The doctor grew more cheerful. "That is fine, Mrs. Corbett," he said. "You see, I get so many cases where these foreign girls think they are married. Some fellow shows them a paper which he says is a license, and away they go with him. They have great respect for a paper, especially if it has a red seal on it. But almost everything will do—a tax notice or a water bill—even an unpaid one." Dr. Symond was quite cheerful now. Then he grew more serious. "I tell you, Mrs. Corbett, it is disgusting how easy these girls are!"

"Sure enough," said Mrs. Corbett. "Easy is right. Ain't nature wonderful, doctor? Don't it beat all how she puts it over on us?"

"I tell you, Mrs. Corbett," went on the doctor, not wishing to discuss this angle of it, "if the women of this city who meet in their local councils and women's institutes and a lot of these other organizations they are spending so much time on, would make it their business to get in touch with every foreign girl and warn her of these things—well, I wouldn't have so much to do; neither would the Superintendent of Neglected Children—and there would not be

Motherhood!

Peterboro, Ont.—"Dr. Pierce's Favorite Prescription was very beneficial to me. I had become all rundown, tired, weak and miserable, had no appetite and my nerves were all upset. I saw the 'Prescription' advertised as being helpful to prospective mothers so I decided to try it. It built me up, quieted my nerves, gave me an appetite and I got along fine the remainder of the time—was able to do all my own work. I had comparatively no suffering, and my baby was very strong and healthy."—Mrs. Lottie Murray, 301 Townsend St.

W. N. U. 1729

so much congestion at the Children's Shelter."

"You are right again, Doctor," said Mrs. Corbett, amiably, "and did it ever strike you that it might be grand work for the Rotary Club and Kiwanians and such like to say a word to the men? They're doin' a fine work, buildin' Homes for these little ones, but maybe if they worked a little harder on the men they would have less need for Homes. But I see what you mean, Doctor, and I know it's a grand thing to always be able to lay all the blame on the women. You see the Lord lets her bear all the pain, and we see to it that she gets all the shame; so why not let the rest of the women bear the blame—there's no use spreadin' it any further."

"You misunderstand me, Mrs. Corbett," said the doctor, quickly. "I have the utmost sympathy for these unfortunate girls, and that is why I would like the women to do something. Indeed, I spoke to the Local Council about it when they asked me to address them."

"That was fine and good of you, Doctor," commended Mrs. Corbett. "I'm a good hand at givin' advice, too. Don't it make a person feel grand to give out a good gob of advice; and then if anyone does go to the devil we can say, 'I warned you, anyway—you can't say I didn't.' But take the tip I gave you now, Doctor, get busy on the men. Leave the women to women—it's women who look after women, anyway."

The doctor interposed: "Now, Mrs. Corbett, I cannot agree with you there. You must have noticed that women are very hard on women." He was pulling on his gloves now, rubbing out the wrinkles carefully.

"No, I haven't noticed it, but I've heard it—I've heard a lot of men say it."

"Now, Mrs. Corbett, I see you are a great cynic, and I would not have thought that of you," Dr. Symond said, laughingly, as he shook hands with her.

"Don't let me keep you, Doctor," she replied, "and it Christmas and all."

When he was gone Helmi opened her eyes. "I can speak English," she said, lifting her head from the pillow. "I heard what he said. Did you give me the ring to wear?"

"Just so," said Mrs. Corbett, "and it's grand that you can speak so well. Swede girl, are you?"

"No, Finn," said Helmi, "two years in Canada. Do you know anything about me? You said my man had joined up—do you know anything about him?"

"Not a word, but you'll tell me when you feel like it," said Mrs. Corbett encouragingly.

Helmi regarded her friend gratefully. "You were good to me just now to say things for me and put the ring on my hand. I could not tell him when he asked me—he made me want to die."

"Sure Mike, I know, he's a good little man in his own way, but it's none of his business. He may be sure no woman goes knockin' round the country without her man at a time like this for the fun of it. Oh, well, you don't need to confess to him, or anyone for that matter, but only to God Himself."

"God don't care," said Helmi bitterly. "I pray and pray but God never hears!"

"Save us all!" cried Mrs. Corbett. "That's an awful way to talk about God, who is more anxious to do right by us than we are to let Him."

"Are you a Christian?" asked Helmi.

"My gracious, how do you think I could ever run a Rooming House if I wasn't and keep from committin' murder. If the love of God hadn't been shed abroad in my heart why do you think I would butt in and tell lies for you?"

"Is it always wrong to tell lies, even kind, good lies like yours? Will God be mad with you for telling a lie for me?" Helmi was afraid her good friend might get into serious difficulties over her.

Mrs. Corbett threw out her hands and laughed. "No fear! God ain't as touchy as lots of people try to make out. It isn't as if I lied to be mean or to hurt someone, and I'll tell you how I've got it sized up. It's a sort of treat for Him to hear someone lie for a woman instead of to her, or about her if you can get what I mean."

Helmi nodded.

"Don't be talkin' now, for tomor-

row is the third day, and then's the time for the fever, if it is comin' at all. Rosie is bringin' your hot milk, and Mrs. Kalinski has your supper cookin' on her stove, and I must be runnin' now to see now the wee lamb is. She's done nothin' but sleep yet, and that's the best thing she can do with the long road of life ahead of her."

CHAPTER XXIII.

Helmi stayed on in Number 18, taking her meals with the Corbetts, and trying to pay for their kindness by cleaning up their congested suite and making clothes for Rosie and Danny, who had become the baby's devoted attendants. Mrs. Corbett was full of encouragement when she heard Helmi's whole story.

"Your man has been delayed, that's all. Sure he'll come—never say die, Helmi, dear—and just think of how pleased he will be to find this fine little girl, the very picture of himself, with her lovely dark eyes. She must be the spittin' image of him, for she's not a bit like you. But looks don't matter so long as you are healthy, and a better child I never saw."

Encouraged by Mrs. Corbett's confidence, Helmi, as soon as she was able, began to go to the station on the two nights of the week the Peace River train came in, sitting huddled on a seat that commanded a view of the big moon-faced clock. Although due to arrive at four in the afternoon, it was often past midnight before the train drew in.

The station agent began to notice the pale girl with the big eyes who came each train night and who seemed so anxious.

was met by his iron gray old man was met by his iron gray old wife, who looked so much like him she might have been his sister. Helmi watched them, noting their fervent kiss, their light steps as they walked happily away arm in arm, both talking. Helmi saw it all, and somehow it comforted her to know that some had found happiness in life, even if it had apparently passed her by.

(To Be Continued.)

Test Your Seed

Germination tests of wheat threshed this spring show that the vitality has been badly damaged. To assure themselves that it is in good sowing condition farmers are strongly urged to have their seed tested for germination.

If men are always judged by their company it's pretty tough on some men who are always alone.

"Fight the good fight of faith; lay hold on eternal life, whereunto thou art also called."—Timothy vi. 12.

Great duties are before me and great songs;
And whether crowned or crownless when I fall
It matters not, so as God's work is done.—Alexander Smith.

The true hero is the great wise man of duty; he whose soul is armed by truth, and supported by the smile of God; he who meets life's perils with a cautious but tranquil spirit, gathers strength by facing its storms, and dies, if he is called to die, as a Christian victor, at the post of duty.

—Horace Bushnell.

The Wrigley Swimming Marathon Trophy is a perpetual trophy to be competed for each year. The first Wrigley Marathon was held off Catalina Island, and won by George Young, of Toronto. The second Wrigley Marathon was held at Toronto and was won by Ernst Vierkoetter, of Berlin, Germany. The third Wrigley Marathon will be held in 1928, either in Canada or the United States. The Wrigley Trophy is a reproduction in sterling silver of the famous "Flying Mercury" modeled by Giovanni da Bologna. The position of the figure is changed to show Mercury presenting to Father Neptune a wreath. Neptune with his trident, dolphins and water surrounding are in bronze. The figure Mercury contains over 1,000 ounces of silver. In addition to the big trophy there will be provided annually a replica in sterling silver and bronze, to be presented to the city where the Marathon is held.

Wigs nearly as well made as those of our own time have been found on the Egyptian mummies.

**NEW BLOOD NEEDED
IN THE SPRING TIME**

Try Dr. Williams' Pink Pills As a Blood Improving, Health-Restoring Tonic

Every man, woman and child needs new, rich, red blood at this time of the year. That is a scientific fact. All doctors know it. The blood grows thin and poor in the winter; there is not enough of it, and spring shows the effect. Take notice and see how many people are pale and sallow at this time of the year. They complain of being easily tired, their appetite is poor, and they are often depressed and low-spirited. That is Mother Nature urging them to improve their blood supply; but often their digestion is weakened so that they cannot turn food into blood without help. Here is where modern medical science comes to the rescue. Dr. Williams' Pink Pills have a direct action on the blood and enable you to get full use of the blood-making elements in your meals. You soon feel their effect—your appetite improves, your nerves are steadier, color returns to the cheeks and lips, you have more vim and energy, and can work with less fatigue.

The value of Dr. Williams' Pink Pills to all who are in what is known as a run-down condition of health is proved by the experience of Dr. John A. O'Neill, Port Hood, N.S., who says:—"It is not possible for me to recommend Dr. Williams' Pink Pills too highly. I had been gradually growing weaker, and found it hard to do my work. I suffered from severe headaches and pains in the back. I was nervous and easily irritated, and altogether my condition was deplorable. A friend urged me to take Dr. Williams' Pink Pills, and I got a half dozen boxes. I had only taken them a short time when I found them helping me, and by the time I had taken the supply I got, I was again enjoying good health. Headaches and pains had disappeared, my nerves were strengthened and I had good reason to be thankful that I had followed the advice of my friend."

Whether you are seriously ill or merely feel easily tired and out-of-sorts, you should try Dr. Williams' Pink Pills this spring. They are sold by medicine dealers everywhere, or will be sent by mail at 50 cents a box by writing The Dr. Williams' Medicine Co., Brockville, Ont.

BOARD OF TRADE MEETING

(continued from front page)

meeting it was believed that this
would be a good idea, but little
could be done until the streets were
graded and boulevards marked off.

The matter of a new fire chief
was discussed, but this being the
work of the Village, it was left for
them to look after.

There being no further business,
the meeting was adjourned.

Miss Scott, of Calgary, arrived
last week and is visiting at the
home of Mr. and Mrs. A. F. McKibbin.

D. E. Charlebois arrived home
on Friday last after spending the
past couple of months visiting at
the coast.

J. A. Toombs left last Friday
for Lethbridge, where he will have
charge of a Jewelry store, owned by
R. A. Wright.

J. A. Connolly and J. A. MacDonald
went into Calgary last
Thursday to take in the Oratorical
contest. They returned on Friday.

Miss Ione Munro returned on
Saturday after spending the Easter
vacation at her home in Red Deer.

The misses Ella Halstead and
Mary Currie returned to Calgary
on Monday after spending the Easter
vacation with their parents in
Carbon.

J. N. MacDonald returned on
Monday after spending the Easter
vacation in Calgary and southern
points.

Mrs. Keller of San Francisco, is
visiting with her mother, Mrs.
Hammel.

T. Bishop, of Three Hills, came
down on Tuesday to bring his son,
Jim, to school here.

Mrs. Raymond left last Saturday
for a visit to the Coast.

Mr. and Mrs. H.A. English recently
received an invitation to attend
a banquet to be given in Toronto
by the relatives of Col. Lindbergh,
in honor of his mother, Mrs.
Lindbergh. Mrs. Lindbergh and
Mr. English are cousins.

J. A. Toombs is having an auction
sale of his entire stock of jewelry,
etc., on Saturday, April 28,
afternoon and evening.
